

SÜRDÜRÜLEBİLİRLİK EL KİTABI

SUSTAINABILITY MANUAL

JULY 2026

REPUBLIC OF TURKIYE

FOUNDATION OF THE REPUBLIC OF Türkiye

After the National War of Independence, which started on May 19, 1919, the First Grand National Assembly of Turkey convened on April 23, 1920, under the leadership of Mustafa Kemal Atatürk.

With the adoption of the first constitution on January 20, 1921, "Sovereignty belongs to the nation unconditionally. "Executive and legislative authority is concentrated in the Turkish Grand National Assembly on behalf of the Turkish nation."

On the first anniversary of the opening of the Turkish Grand National Assembly on April 23, 1921, April 23 was declared a national holiday with Law No. 112.

The Republic was declared on October 29, 1923.

.

MUSTAFA KEMAL ATATÜRK

(1881-1938)

ATATÜRK, FOUNDER AND FIRST PRESIDENT OF THE REPUBLIC OF TURKIYE

He was born in Thessaloniki in 1881. His mother is Zübeyde Hanım and his father is Ali Rıza Efendi. He went to the Mahalle School, Şemsi Efendi School, Thessaloniki Civil Junior High School, Thessaloniki Military Junior High School, Thessaloniki Military High School, the Military Academy and the Military Academy, respectively. While he was studying at the Military Middle School in 1893, "Kemal" was added to his name by his mathematics teacher and he took the name Mustafa Kemal. When the Ottoman Empire was defeated in World War I, the Armistice of Mudros was signed. Following the start of the occupation of the homeland in accordance with this agreement, Mustafa Kemal went to Samsun on May 19, 1919 and started the national struggle. Mustafa Kemal was elected as the President of the Parliament and Government with the opening of the Turkish Grand National Assembly on 23 April 1920. After winning the Battle of Sakarya, he was honored with the title of Gazi and the rank of Marshal. Mustafa Kemal became the first President of the Republic of Turkey with the proclamation of the republic on October 29, 1923.

GRAF VİCTOR APART HOTEL

We launched our sustainability efforts in 2025. We aim to share the progress we've made in this area with our management, employees, guests, suppliers, and all our other partners, thereby raising awareness and transforming it into shared goals and achievements.

As Graf Victor Apart Hotel, we've preserved our valuable heritage with fruit trees and vegetables planted by ourselves, creating a haven nestled in the shade of trees that exude health and tranquility, right in the heart of nature. Our hotel was built with the highest standards of comfort. Our hotel is open year-round, providing a home-like experience of peace and tranquility.

- The comfort of your home
- 2 large and spacious deluxe and 37 standard room
- sSwimming poo
- lTurkish bath
- Sauna

A 5-minute walk to Mahmutlar Beach and just a 30-minute drive to Alanya city center

Our Mission: To provide our guests with a home-like, reliable, high-quality, and welcoming accommodation experience, helping them create unforgettable memories, adhering to sustainable tourism principles and prioritizing guest satisfaction through continuous improvement.

Our Vision: To be the region's leading and preferred aparthotel, adding value to the tourism sector with our innovative and environmentally friendly practices, and creating a warm, peaceful, and privileged accommodation environment that will make every guest want to return.

GRAF VICTOR APART HOTEL

OUR QUALITY, ENVIRONMENT AND FOOD SAFETY POLICY

GRAF VICTOR APART HOTEL aims to be one of the top-choice hotels in the region thanks to its continuous in-service training and the unique perspective it brings to hotel management. In achieving this goal, our top priorities are to consider environmental issues, reduce negative impacts on the environment, and foster environmental awareness through careful resource management. Toward these goals, under the leadership and responsibility of senior management, with the voluntary participation of all our employees, and by continuously improving our processes and systems to meet modern requirements, our guest-focused service approach has become a well-established philosophy. As a result, we have adopted the following principles as a basis for all our operations:

- Being responsible for quality alongside all our managers and employees
- Working in compliance with laws and regulatory requirements
- Continuously monitoring the control points we have established to ensure safe food production
- Relying on the support and productivity of our employees
- Ensuring that we achieve contemporary quality standards and customer satisfaction at every stage of service
- Acting on the principle of "continuous improvement" in all our work
- Improving our skills and quality awareness through training
- Raising family awareness by prioritizing the happiness of our employees
- Organizing environmentally conscious activities, ensuring their participation, and inviting our guests to participate in our work
- Evaluating the performance of our suppliers and communicating with them to ensure the continuity of our product quality
- Respecting and supporting society and the environment for sustainable tourism

General Manager

GRAF VICTOR APART HOTEL

OUR CHILDREN'S RIGHTS POLICY

As a well-established tourism organization, the GRAF VICTOR APART HOTEL family is committed to welcoming all our customers, including children, as guests.

We are committed to providing services that integrate national and international values and fully comply with the requirements of human rights and children's rights. We prioritize the best interests of children over all others and act accordingly, continuously improving the system to ensure its continuity.

We recognize that all children are rights-bearing individuals.

We strive to ensure that children's rights are embraced and experienced in all areas of life, respecting their: rights to life and development rights to protection rights to participation rights to non-discrimination and to work together with all stakeholder institutions and organizations, as well as civil society organizations and local governments, in implementing this policy.

Therefore, we prioritize training and continuous development to ensure that all our staff are informed about children's rights.

We are committed to taking the necessary legal and administrative measures within the framework of the UN Convention on the Rights of the Child and the concept of the Social State enshrined in our Constitution, improving all necessary conditions, and ensuring children's more active and fulfilling participation in life.

ALANYA CABLE CAR

ECOLOGICAL TRANSPORTATION

Alanya Cable Car offers "ecologically sensitive transportation" with its technology elegantly placed in nature. Great care is taken to protect the environment and consume natural resources economically at every stage of construction and operation. It contains all the advantages of ecological transportation vehicles. Designed to operate in all weather conditions, the Alanya Cable Car system can continue to operate uninterruptedly in conditions such as rain, wind and high temperature.

Transportation is provided by taking Alanya minibuses from the stops on the main street in front of our hotel.

DAMLATAŞ CAVE

DAMLATAŞ CAVE

Damlataş Cave was found in 1948 during a quarry for stone to be used in the construction of the port. The cave is on the west coast of the historical peninsula. The stalactites and stalagmites of the cave, located in semi-crystallized limestone, were formed over 15 thousand years. The cave was named "Damlataş" because of the drops of water that continue to drip from the stalactites. Damlataş Cave, a favorite of local and foreign tourists, is famous for its enchanting beauty as well as its air that is good for asthma patients. The weather of the cave does not change in summer or winter; temperature is 22 degrees Celsius, humidity is 95 percent, constant pressure is 760 mm. The air of the cave contains 71 percent nitrogen, 20.5 percent oxygen, 2.5 parts per ten thousand carbon dioxide and some radioactivity and ions. Entrance to the cave is paid. There is a small market around it and the beach in front of it.

Transportation is provided by taking Alanya minibuses from the stops on the main street in front of our hotel.

ALANYA KIZILKULE

ALANYA KIZILKULE

13.yy ortaçağ Akdeniz savunma yapılarının eşsiz bir örneği olan Kızıl Kule; limanı, tersaneyi ve Alanya Kalesi'ni deniz yönünden gelecek saldırılara karşı korumak amacıyla Selçuklu hükümdarı I.Alaaddin Keykubat tarafından Halep'li yapı ustası Ebu Ali Reha el Kettani'ye inşa ettirilmiştir. Yapının dış kuzey duvar yüzeyinde "Allah'a minnet" ve onun altında yerden 10 m yükseklikte Alaaddin Keykubat adına yazılmış ve inşa tarihinin 1226 Nisan ayı olarak belirten dört satırlık bir inşa kitabesi, güney duvarında ise başka bir inşa kitabesi mevcuttur. Sekizgen bir plana sahip olan Kızıl Kule, sade dış görünüşünün aksine içte karmaşık bir plana sahiptir. Kızıl Kule; zemin kat, birinci kat, asma kat, açık kat ve açık teras olmak üzere beş katlıdır.

Otelimizin önündeki ana caddede bulunan duraklardan Alanya dolmuşlarına binerek ulaşım sağlanır.

ALANYA RED TOWER

ALANYA RED TOWER

Red Tower, a unique example of 13th century medieval Mediterranean defense structures; It was built by the construction master Ebu Ali Reha el Kettani from Aleppo by the Seljuk ruler Alaaddin Keykubat I in order to protect the port, shipyard and Alanya Castle against attacks from the sea. There is a four-line construction inscription on the outer northern wall of the building, written in the name of Alaaddin Keykubat, 10 meters above the ground, stating "gratitude to God" and the date of construction as April 1226, and another construction inscription on the southern wall. Red Tower, which has an octagonal plan, has a complex plan inside, contrary to its simple exterior. Red Tower; It has five floors: ground floor, first floor, mezzanine floor, open floor and open terrace.

Transportation is provided by taking Alanya minibuses from the stops on the main street in front of our hotel.

DİM STREAM

DİM STREAM

The river originating from the Taurus Mountains follows a course of approximately 60 kilometers. Its water is cold in summer and winter, making it an ideal place for those who want to escape the sweltering heat of the Mediterranean, especially in summer. There are many restaurants and tea gardens opening parallel to the road. These restaurants continue after the regulator, which is approximately 7-8 kilometers away from the main road. A common feature of the restaurants and picnic areas here is the tables thrown into the river. The upper parts of the river are used for rafting purposes.

Transportation is provided by taking Alanya minibuses from the stops on the main street in front of our hotel. Transportation is provided by getting off at the last stop and taking the buses that say Dimçayı.

SAPADERE CANYON

Located between the fierce Taurus Mountains, the canyon is surrounded by high mountains on three sides and is 750 meters long. Located 400 meters above sea level, the canyon is surrounded by karst rocks with an average width of 10-15 meters and a circumference of 150-200 meters. Since its water comes from the rocks of the Taurus Mountains, it is cold and has plenty of oxygen.

The canyon, which was opened in 2008, was built on steel construction with wooden platform walking paths for easy navigation, and some areas were protected with wire for security. The walk, which starts with a slight incline from the entrance of the canyon, becomes more enjoyable with 10-15 degree ramps from time to time.

Transportation is provided by taking Alanya minibuses from the stops on the main street in front of our hotel. Continue by taxi. Public transportation does not go to this area.

SİDE ANCIENT CITY

The ancient city of Side is one of the most important settlements in history, founded in the 7th century BC. This historical city, which belongs to the Pamphylia region, was the first empire of the Lydian Kingdom and remained under this reign for many years. The ancient city of Side, which later transitioned to the Persian Kingdom, passed to the King of Macedonia when Alexander the Great requested the region.

You can get there by taking Manavgat buses from the stops on the main street in front of our hotel, and by taking Side minibuses from the city center.

ASPENDOS ANCIENT THEATER

Aspendos is famous for having the best-preserved Roman Period theater not only in Anatolia but in the entire Mediterranean world. The city was founded on the hill plain near one of the largest rivers of the region, Köprüçay (Ancient Eurymedon). Today, theaters and waterways are mostly visited in Aspendos, which owes its transportation and development with the Mediterranean to the nearby river and therefore the fertile lands around it.

From the stops on the main street in front of our hotel, you can take Antalya buses to Serik and from there take minibuses to Aspendos.

MANAVGAT WATERFALL

Manavgat Waterfall

It is a waterfall located on the Manavgat River in the Manavgat district of Antalya. Although it pours from a low height, it flows over a wide area with a high flow rate.

You can take Antalya buses from the stops on the main street in front of our hotel and go to Manavgat.

ANTALYA KALEİÇİ

Antalya Kaleiçi is protected by two thick horseshoe-shaped walls. One of these rampart-shaped walls is in the seaside bay, the other is on the land side. In addition to these walls, there are also walls separating the various settlements from each other, and there is a tower approximately every fifty steps on the outer walls. Narrow streets within the walls extend along the wall from the port upwards. Yivli Minaret, Keyhüsrev Madrasa, Karatay Madrasa, İskele Mosque, Tekeli Mahmut Pasha Mosque are just some of the important historical monuments within the city walls.

You can take Antalya buses from the stops on the main street in front of our hotel and reach the Castle by Antalya city buses.

HADRIAN GATE

It is one of the best preserved historical buildings in Antalya. The building, which is a Roman work, was built in 130 AD in the name of Roman Emperor Hadrian. Over time, the city walls closed the outer part of the gate and the gate was not used for many years. Perhaps this is one of the reasons why the work has survived until today without being destroyed. The gate was unearthed after the ruins of the city walls were demolished. It is considered the most beautiful gate of Pamphylia. There are three dome-shaped openings at the top. It is made entirely of white marble, except for its columns. The carvings and relief decorations are very beautiful.

You can take Antalya buses from the stops on the main street in front of our hotel and reach the Castle by city buses.

HOW TO GET THERE?

ALANYA HARBOUR – RED TOWER

Take the Alanya buses that pass in front of our hotel and get off at the last stop. It is about a 15-minute walk away.

ALANYA CASTLE

You can reach the castle by bus from Alanya city center or by cable car from Damlataş. You can also walk 1 hour from Alanya city center to the castle.

MANAVGAT - SIDE

You can reach Manavgat and Side center in 1.5 hours by using public transportation passing through the main street in front of our hotel.

ANTALYA

You can reach Antalya city center in 2.5 hours by using public transportation passing through the main street in front of our hotel.

AIRPORT

Our hotel guests can reach Antalya airport in 2 hours with their own agency's transfer vehicles.

Our hotel guests can reach Gazipaşa airport in 60 minutes with their own agency's transfer vehicles.

ALANYUM

You can use public transport from the stops next to our hotel, first get off in Alanya city center, then get on the bus again and reach Alanyum shopping center.

*** Public transportation in residential areas is provided by Supervised City Minibuses for a fee or by city cards on Municipal Buses.

*** If they wish, our guests can benefit from taxi services at the taxi stands located near our hotel.

NEIGHBORHOOD MARKETS

ÇARŞAMBA KESTEL PAZARI

Her Çarşamba günü otelimize yaklaşık 2 km uzaklıkta sebze, meyve ve tekstil pazarı kurulmaktadır.

ALANYA NEIGHBORHOOD MARKETS You can get detailed information about other neighborhood markets in Alanya by scanning the QR code.

LOCAL RESTAURANT

Alanya'mıza özgü yöresel yemekleri tadabileceğiniz yöresel restoran için ESMA HANIM'IN YERİ'Nİ yada yerel esnaf lokantalarını tercih edebilirsiniz.

CULTURAL INFORMATION

TURKISH TEA

A type of black tea is produced in Turkey and grows along the Eastern Black Sea coast. This type of tea is also called "Turkish tea" among the public. It is brewed with powdered roasted black tea and served in unique small glasses known as "ince waist".

CULTURAL INFORMATION

TURKISH COFFEE

Turkish coffee is one of the oldest coffee preparation and cooking methods that has survived from the Ottoman Empire to the present day, which has an important place in Turkish culture. It has a unique identity and tradition with its unique taste, foam, smell and presentation style. It is the only type of coffee served with grounds.

As of 2013, Turkish coffee culture and tradition was recorded on the **UNESCO Representative List of the Intangible Cultural Heritage of Humanity** on behalf of our country.

CULTURAL INFORMATION

AYRAN

It is a type of drink obtained by adding water to yoghurt. It is one of the most common drinks belonging to Turkish cuisine.

Göktürks, who ruled between 552-745 AD, added water to yoghurt to reduce its sourness. Thus, ayran came into being by chance.

The word ayran was defined for the first time in history as "a drink obtained from milk" in the work Divan-ı Lügat-it Türk.

CULTURAL INFORMATION

GÖZLEME

"Gözleme" is a type of appetizer Turkish pastry prepared by filling thinly rolled dough with various filling ingredients and then baking it on a sheet metal over a wood fire.

"Közmen", which means bread cooked on embers during the Seljuk period, is one of the first expressions used to mean flatbread. Over time, due to the evolution of the spoken language and the changing local dialects, it has changed and taken the name gözleme.

CULTURAL INFORMATION

ALANYA G L KL  (H L KL )

SOUPG l kl  (H l kl ) Soup, made for gatherings such as weddings, religious festivals, and funerals, or prepared specifically for important guests, is Alanya's most important soup. It was also known as "Wedding Soup" because it was once served as a wedding dish. Today, it is consumed not only on special occasions but also frequently in the daily lives of Alanya residents. For this reason, it can be said to be the district's most beloved soup.G l kl  (H l kl ) Soup was registered as a "Geographically Indicated Product" by the Alanya Municipality in 2019 under the name "Alanya G l kl  (H l kl ) Soup."

CULTURAL INFORMATION

TURKISH BATH

There has been a bath culture in Anatolia since ancient times. Turks carried their bath traditions, which existed when they lived in Central Asia, to Anatolia, where they migrated. They placed their own traditions on the marble bath culture left by those who lived before them. Over time, baths became places where very special days were celebrated. For women, which continues even today, there are "bridal baths", "puerperal baths", "baby's forty baths", "votive baths", "mourning baths" and "groom's baths", "circumcision baths", "soldier baths" and "baths for men". Eid Hammam" continues to be up-to-date.

CULTURAL INFORMATION

HACIVAT KARAGÖZ

Karagöz and Hacivat is a shadow play performed on a screen with two-dimensional depictions, based on imitation and mutual conversation. Karagöz actor is called fictional, imaginary. Change the conversation in the game is done with head movements.

It is not known for certain whether these two characters actually lived or not, and if so, where and how they lived. What is told is based on rumors, because even if they really lived, they probably did not find it important enough to be included in the history books during the mentioned period.

CULTURAL AND NATURAL HERITAGE

CARETTA CARETTA

Caretta caretas, which never come to land except to lay eggs, are in the category of endangered creatures. Loggerhead sea turtle (Caretta caretta) and green sea turtle (Chelonia mydas) species lay eggs on the Mediterranean coast of Türkiye.

According to the results of studies carried out in the Mediterranean from past to present, the most important nesting areas of the Caretta caretta species are **Türkiye** and Greece.

Please let's be environmentally conscious in travel areas.

In our country, cigarettes and alcoholic beverages are not sold to children under the age of 18.

In all areas except the beach, swimsuits are not allowed, clothes are worn.

Do not take photographs of children or touch children without permission from their families.

Before entering sacred areas such as mosques, shoes are removed and women cover their hair with a veil.

ÇEVREMİZİ KORUMAK İÇİN To Protect Our Environment

Consume less electricity!
Turn off and unplug unnecessary working devices.

Research it!
Find out where and how a
food you eat is produced.

Change your habits!
Use cloth bags instead of Plastic bags.

Notice them!
Put a bowl of water outside
for street animals.

Less water Consumption
Do not leave the water on all the time while brushing
your teeth and washing your hands.

Observe it!
your disposables and use them less.

ÇEVREMİZİ KORUMAK İÇİN To Protect Our Environment

Yenileyin!

Kırılmış ya da bozulmuş eşyalarınızın yerine yenisini almadan önce onları tamir etmeye çalışın.

Refresh it!

Before you buy a new one for your broken or damaged items, try to fix them.

Geri Dönüştürün!

Atıklarınızı uygun geri dönüşüm kutularına atın.

Recycle it!

Dispose of your waste in appropriate recycling bins.

Fidan Dikini!

Bir ağaç tohumunu çimlendirin ve büyüttüğünüz fidanı toprağa dikin.

Plant saplings !

germinate a tree seed and plant the seedling you have grown into the ground.

Kullanmayın!

Tek kullanımlık plastik pipetleri kullanmayın.

Do not use!

Do not use disposable plastic straws.

Doğaya Saygı Duyun!

Daha az kâğıt kullanın. Kâğıtların iki tarafını da kullanın.

Respect nature!

use less paper. Use both sides of the paper.

Paylaşın!

Kullanmadığınız giysileri giysi toplama kutularına bırakın ya da başkalarıyla paylaşın.

Share it!

leave unused clothes in the clothes collection boxes or share them with others.

ENERGY SAVINGS

We track the progress of our efforts to reduce natural resource consumption and track the success of our targets.

Our hotel utilizes solar energy. This energy use significantly reduces the fuel used to generate hot water.

We ensure that all electronic products we purchase are energy-efficient, and all our employees receive training on energy conservation.

The following energy-saving initiatives are underway and maintained at our hotels.

ENERGY-SAVING

98% of our facility's lighting is made of LED lights. The goal is to have 100% LED lighting.

Electronic energy cards are used in all rooms.

We prefer highly energy efficient, environmentally friendly devices and technologies.

Motion-sensitive sensor illuminators are used in general areas and staff areas.

General areas are designed to take advantage of daylight for energy saving.

OUR ENERGY SAVINGS GOALS

We will continue to implement energy efficiency enhancement practices in our hotels.

We will continue to purchase energy-efficient appliances with reduced environmental impact.

We will continue to provide annual training on energy conservation measures to reduce energy consumption.

We will continue to develop energy consumption reduction projects. We will continue to collaborate with regional and international initiatives related to the conservation of energy resources.

We will continue all necessary efforts to increase the use of renewable energy sources.

WATER SAVING

There are water-saving aerators in all rooms and common areas.

All WCs use economical 6 and 3 litre dual flush systems.

By choosing shower cabins instead of bathtubs, water savings are achieved.

When watering our garden, water losses are prevented by using a sprinkler system.

WATER SAVING

Our employees are trained on water conservation. Our guests are informed about our conservation practices.

Wastewater is connected to the sewer system in accordance with the discharge regulations.

There are warning signs for water saving on taps in all public areas.

There are warning signs for water saving on the taps in the production and personnel areas.

Our water consumption is monitored and recorded monthly and annually.

Antalya/Alanya Su Risk Haritası. (Su Risk Atlası)

OUR WATER SAVING GOALS

- We will continue our annual training programs to raise awareness among our staff about reducing water consumption.
- We will continue to develop water consumption reduction and recycling projects.
- We will collaborate with regional and international initiatives related to the protection of water resources.
- We aim to increase the number of water meters in departments.
- We aim to reduce water and chemical consumption with environmental information displays in rooms.

WASTE MANAGEMENT

Waste management is a management method that involves reducing waste at its source, separating it according to its characteristics, collecting, storing, recovering, transporting, disposing of it, monitoring it after disposal, and similar processes.

Our primary goal in our Waste Management System is to reduce waste volume, manage our waste effectively to minimize environmental impact, and recycle recyclable materials.

As part of the Zero Waste Project, waste separation and separate disposal are ensured.

Our staff receives training on the importance of waste separation, and waste separation is monitored by the departments.

Sufficient trash receptacles are placed throughout the facility to allow guests to separate their waste.

Hazardous waste is regularly collected in the hazardous waste storage area and delivered to a licensed Waste Transportation Company.

To ensure the separate collection and recycling of recyclable waste, separate bins for each waste are placed in each section, and the importance of this issue is constantly emphasized to staff.

WASTE MANAGEMENT

We separate our waste at its source.

NO PLASTIC

We conserve our resources by using reusable materials instead of single-use materials.

To reduce paper consumption, we do our correspondence via e-mail and use double-sided papers.

We encourage our guests and employees to participate in recycling programs.

We reduce packaging waste by purchasing large packaged and concentrated products.

CHEMICAL USE

We work with relevant companies to ensure the safe disposal of chemicals and monitor chemical waste.

We train our employees on chemical use and the precautions to be taken in the event of a hazardous chemical spill or spill.

We monitor chemical usage and provide staff training to prevent waste and misuse of chemicals.

We take the necessary precautions for hazardous chemical waste, leaks, and other situations, and provide staff training to respond to spills, exposures, and other incidents.

KARBON

We purchase from nearby locations whenever possible. This way, we aim to minimize the CO₂ emissions of supplier delivery vehicles. We aim to reduce our environmental impact.

The carbon emissions from our energy consumption (electricity + LPG) in 2022 for our hotels are calculated as kWhCO₂e.

We are planning actions to reduce our carbon footprint for a sustainable future.

We will take measures to do more with less energy. We will also consider the energy efficiency rating when purchasing a product.

We will choose energy sources that produce less carbon. We will make greener choices.

We will contribute more to energy efficiency by offsetting our carbon. We aim to reduce our carbon footprint through various activities, especially tree planting. We will create added value and set an example through our social responsibility projects.
